Date Closes: 03-26-04

Locations: Dahlgren, VA

About Us: Navy Public Works Center is the Regional Facilities Management Team. We offer timely, best value, innovative, technological solutions and alternatives to meet our clients' facility management needs. We support the missions and provide the best Quality of Life for our NDW Family. Our facility services include: life cycle management, planning, maintenance, repair, construction, engineering, building services, grounds maintenance, transportation, utilities and other installation support.

About the Job: Responsibilities include, but are not limited to: operating straight in line trucks, dump trucks, tanker trucks and in emergencies hauling fuel to housing areas. The incumbent will operate pumps and accessory equipment to load, unload, and transfer freight, cargo and liquid fuel from bulk storage facilities to buildings, ships, etc. Required to inspect trucks, tanks, containers, and other varied equipment for loading fuel and freight products. Required to process paperwork in accordance with prescribed regulations and procedures; keep records of shipments, receipts and transfer orders. Driver performs normal operator maintenance and may be required to make minor emergency repairs and/or adjustments to the trucks and or fueling systems and/or associated equipment. This position is subject to drug testing. The selectee may be required to pass a physical examination. Also, the selectee must be able to qualify for an Explosive Drivers permit to enable the hauling of explosive ordinance.

KNOWLEDGE, SKILLS AND ABILITIES:

1. Ability to do the work of the position without more than normal supervision (Screen Out).
2. Knowledge in the operation of straight in line trucks and tanker trucks with the capacity of five tons or more and passenger buses.
3. Knowledge of varied trucks and operations of their special devices.
4. Must be skilled in the application of air brakes and shifting gears to control vehicles.
5. Must have a valid license and Commercial Drivers License (CDL)
6. Must be familiar with Naval Facilities Engineering Command P-300.
7. Must be able to communicate in writing.
